patryk.jan.neubauer@gmail.com
Warsaw

SUMMARY

- QA Tester with over 3 years of experience testing mobile applications (iOS & Android), web software, and console games. Skilled in functional, exploratory, regression, compatibility, and usability testing.
- Experienced in API validation (Postman), SQL data checks, bug reporting, creating test documentation, and collaborating with development teams.
- Strong analytical skills, proven defect detection, and hands-on experience with certification processes for console platforms. Capable of working in fast-paced environments while ensuring high product quality.

EDUCATION

09.2018 - 04.2022
Technikum nr 8 im. Jana Karskiego w Zespole Szkół nr 42
Specialization: IT specialist
Education level: secondary education

LANGUAGES

- Polish - Native
- English - Professional working proficiency

TOOLS & TECHNOLOGIES

Jira: bug tracking and project management

MySQL: writing basic queries for database validation

Postman: testing REST APIs and verifying endpoints

Asana: task tracking and managing test progress

Xcode: debugging and testing iOS applications

ClickUp: task management and test tracking

Swagger UI: API documentation and testing

Microsoft Office: managing project data

DevTools: analyzing HTTP responses, debugging, and inspecting web application elements

CORE COMPETENCIES

- Manual testing: functional, regression, exploratory, usability
- Test documentation: test plans, test cases, checklists, bug reports
- API testing: CRUD operations, JSON structure validation, HTTP responses
- SQL: basic queries, data verification, database validation
- Mobile platforms: iOS & Android testing
- Console game certification testing
- Cross-team communication & defect triage
- Microsoft Office Suite

PROFESSIONAL EXPERIENCE

Compliance QA Tester / Functional QA Tester
Lionbridge Poland Sp. z o.o. | June 2022 - present

Responsibilities:

- Executed manual tests for mobile applications and console games, ensuring functionality, stability, and certification compliance.
- Reported, tracked, and verified defects using Jira, Asana, and ClickUp, providing clear reproduction steps and severity assessment.
- Performed regression, compatibility, and exploratory testing across multiple environments.
- Created and maintained detailed test cases, test plans, and test reports.
- Conducted API tests with Postman, validated responses, and analyzed JSON structures using DevTools.
- Collaborated with developers to resolve critical issues and verify implemented fixes.
- Assessed release readiness and supported certification submissions.

Key Achievements:

- Achieved 100% pass rate in platform certification submissions.
- Improved internal QA processes through accurate defect root-cause analysis.
- Ensured high-quality delivery for multiple mobile apps and AAA game titles.
- Maintained strong cooperation with cross-functional teams and clients.

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
